

Experience the April 8th, 2024 Solar Eclipse in Mexico with Eight Incredible Speakers

Unwind amidst the natural, recreational, and cultural landmarks of our Mexican Riviera cruise. And while we're at sea — enjoying the traditional pleasures of cruising — you can also choose to attend one of two optional conference programs* to absorb the latest in contemporary astronomy.

Our two educational programs feature: two astronauts, **Drs. Jeffrey Hoffman** (five Space Shuttle missions), and just added, **Dr. Garrett Reisman**, an alien (well, actor from Star Trek), **Tim Russ**; **Dr. Rick Fienberg**, *Sky & Telescope* Senior Contributing Editor;

Dr. Chris Benton will bring a medical perspective to spaceflight; and EXOPLANET experts **Drs. Natalie Batalha, Natasha Batalha**, and **Betül Kaçar** will present the latest in the exoplanet domain.

Astronaut Garrett Reisman, Ph.D. (100+ days onboard the International Space Station plus 21+ hours of EVA in three spacewalks) has recently just joined the program, adding to the aeronautical expertise of astronaut **Astronaut Jeffrey Hoffman, Ph.D.**: Editor Kelly Beatty. Check out Austin's legendary music scene and diverse food venues.

Jeffrey Hoffman, Ph.D.

Garrett Reisman, Ph.D.

Tim Russ

An Alien

Three Exoplanet Experts
